

PA10 & 11 Monitor Pole

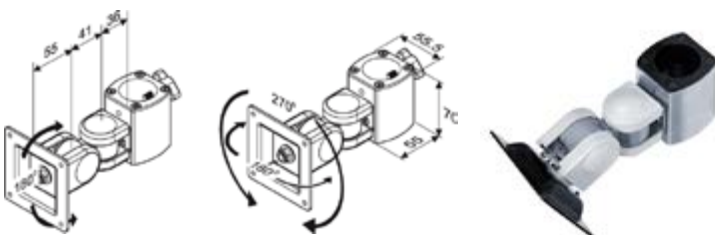

by
Kondator

A platform for a keyboard and mouse can be added.

Space saving & flexible

Suits most needs, frees up space and is flexible in its simplicity and functionality. Often a natural choice in "tight quarters" in both the office or factory and at cashier desks in the retail trade. Very easy to assemble and both the height and tilt are adjustable.

438-LA37 is easy to assemble and adjust for extensive flexibility.
