Termobilen Mobile PC station

438-PA21 "Termobilen"Delivered complete with CPU holder and strap, keyboard & mouse holder, and monitor bracket Vesa 75/100.

Mobile and flexible PC station

A mobile work station you can set up anywhere! Extremely useful within the manufacturing, car & research industry as well as other areas where high mobility and flexibility are required. Comprised of a highly stable tripod with a full height of 185 cms and wheels with an incorporated braking system. The computer is easily fixed onto the main frame of the work station with a patented locking strap. Includes slotted monitor and keyboard holders with wrist rest and integrated mouse table, both vertically adjustable for a correct and comfortable working position.
